Terms and Conditions of Sale

I. Buyer's Charge

A Buyer's Charge of 10% on each individual lot will be added to all purchases made by all bidders and will be based upon the total amount of the final bid. THIS BUYER'S CHARGE WILL BE ADDED TO ALL INVOICES.

II. Bidding

Each lot will be sold to the highest bidder UNRESERVED at a slight advance over the next highest bid. In the event of floor disputes, the auctioneer's determination shall be final. All bids are to be per lot; no lots will be broken. We reserve the right to reject any bid that we believe has not been submitted in good faith.

III. Mail Bidders

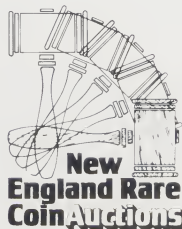

When a mail bidder submits the high bid on a lot, he will be awarded the lot at a nominal 5 to 10% advance over the second highest bid. (For further explanation, see An Important Note to Mail Bidders, p. iii.) In the event of tie winning mail bids, the first bid received will be awarded the lot. Bids are accepted in whole dollars only. All others will be rounded to the nearest dollar. No unlimited or "buy" bids will be accepted. Note: A 10% buyer's charge will be added to each successful bid; See Section I, above. All bid sheets must be signed; company bids must be submitted with a personal signature. We cannot assume responsibility for any errors made as to lot numbers or amount on mail bid sheets, so check your bid sheet carefully.

IV. Limiting Total Purchases

New England Rare Coin Auctions offers the service of limiting total purchases of mail bidders. This service is available only to those bidders who wish to limit their purchases to \$1,000 or more. To limit purchases, fill in the proper area on the mail bid form. bids may then be submitted for amounts up to three times the amount of your limit total figure.

V. Establishing Credit to Bid

Bidders who have not established credit must furnish satisfactory references or send a deposit of 25% of the total amount of their bids. Deposits are applicable to purchases; unused portions will be promptly refunded after the sale. No deposit is required for bids totaling less than \$100. Establishing credit to bid is used to show the good faith of the bidder and does not establish a shipment before payment account.

VI. Payment

Terms of this sale are strictly CASH with PAYMENT in U.S. funds DUE IMMEDIATELY upon receipt of invoice. All late remittances will be subject to interest charges. Delivery of lots at the sale will be contingent upon prior credit arrangements. Lots delivered in Massachusetts are subject to State Sales Tax of 5%. Postage and insurance costs will be added on lots shipped. We reserve the right to obtain payment in full before delivery of lots. Title does not pass until lots are paid for in full.

VII. Authenticity

All lots are guaranteed genuine. Requests to return coins must be made in writing within 3 days of receipt of the coins. Late remittance for purchases, however, is cause to negate this privilege. (No lots may be returned after Aug. 22nd except for reasons of authenticity. No lots purchased by floor bidders may be returned. The return lot must be intact in its original holder. AUCTION SALES ARE NOT APPROVAL SALES.

VIII. Acceptance of Terms

The placing of any bid in this sale constitutes acceptance of the foregoing terms and conditions.

All photographs depict the actual lots being sold. Every attempt has been made to illustrate the lot as it appears to the naked eye. The following series has been enlarged to provide a more visual representation of the coins: Three-Cent Silver, Half Dimes, One Dollar Gold, Commemorative Gold, and California Gold.

QUANTITATIVE GRADING SYSTEM

New England Rare Coin Auctions uses the grading terminology as interpreted from the "Official ANA Grading Standards for United States Coins". The ANA's terminology is very simple and straightforward. It includes only eleven letter classifications. The numerical scale adapted from The Sheldon Grading System remains the heart of the ANA system and is somewhat simplified to make grading more standardized.

The terminology is as follows:

Poor-1	VF-30	MS-67
Fair-2	VF-35	MS-70
AG-3	EF-40	Proof, Mishandled
G-4	EF-45	(Graded using the
G-6	AU-50	new numerical scale
VG-8	AU-53	of business strikes)
VG-10	AU-55	Proof-60
Fine-12	AU-58	Proof-63
Fine-15	MS-60	Proof-65
VF-20	MS-63	Proof-67
VF-25	MS-65	Proof-70

Special note: MS-69 and Proof-69 will denote nearly perfect Mint State and Proof coins. Additional numerical grades may be used on Mint State and Proof coins. Split grades indicate obverse/reverse grade. For example, 63/67 indicates that the obverse is Choice and the reverse is Superb.

Special note: Mishandled Proofs will be graded as any circulated coin and may be classified as Proof-40, denoting an Extremely Fine coin or Proof-55, etc.

New England Rare Coin Auctions will continue to describe the coin beyond its numerical grade, describing depth of strike, defects, color, luster

and other important factors. The goal being to provide the maximum information about a coin's condition through description and photography.

AN IMPORTANT NOTE TO MAIL BIDDERS

If you are submitting mail bids, you may have some questions regarding how we execute your bids. When we receive mail bid sheets, they are sequentially assigned bidder numbers. The bids on each sheet are then transferred into a master bid book for the auction. For example, let's say we receive your bids and assign you bidder #749. We would then post your bids into the master computer-generated bid book as shown in the diagram below.

Your bid sheet:		Our master bid book:				Opening Bid
Bidder #749						
Lot	Amount	Lot	\$250	\$500	\$1,000	
658	\$1,000	658	641	1078	749	\$550
Lot	Amount	Lot	\$250	\$450	\$550	
659	\$ 550	659	868	945	749	\$475

the amount you bid
your bidder number

Just before the auction starts, based on the mail bids submitted, we record what the opening bid will be on each lot in the column marked "opening bid" (as shown above). This opening bid is determined by increasing the second highest bid received on a given lot by 5-10%. For example, we received mail bids of \$250, \$500, & \$1,000 for Lot 658. The second highest bid (i.e. \$500) increased by 5-10% is \$550. Therefore, \$550 is the figure recorded in the "opening bid" column. Now if there is no floor activity on the lot, you (as bidder #749) are awarded the lot at

\$550. If there is floor activity on the lot, we will act as your agent and bid competitively for you. If the amount you bid is not exceeded by a buyer on the floor, you will be awarded the lot at wherever the bidding stopped.

It is important to emphasize that the bid you submit on a lot should be the absolute maximum that you would be willing to bid for that lot. Following the above procedure, we will always try to obtain the lot for you as inexpensively as possible; you will not necessarily have to pay the full amount of your bid. As a matter of fact, nearly 70% of our mail bidders are awarded their successful purchases at less than their top bids. All of our auctions are unreserved, too. This means we do not allow reserve bids, and every coin in our sales is sold to the highest bidder.

New England Rare Coin Auctions offers many special services for its mail bidders. Our Exhibition Service offers you the opportunity to personally view the lots before placing your bids. Our Personal Bidding Service offers you your own personal agent at our auctions. (Further information on both these services is in the front section of this catalog.) We also allow you to limit the total amount of your purchases (consult the Terms and Conditions of Sale for further details). This way you can submit more bids, greatly increasing your chances of successfully obtaining one or two coins of your choice without overextending your budget. **HOWEVER, THIS LIMIT DOES NOT INCLUDE THE 10% BUYER'S CHARGE ADDED TO EACH LOT.**

Before you enter your bids, please be sure to read the TERMS OF SALE very carefully. If you have any questions at all about bids you wish to submit, please call our toll free number 1-800-225-6794, Ext. 99. We appreciate your participation in this and future sales.

OUR PERSONAL BIDDING SERVICE

California Florida Georgia Illinois Maryland Massachusetts Michigan New York Pennsylvania California Florida Georgia Illinois Maryland Massachusetts Michigan New York Pennsylvania California

Your personal bidder will perform the following services for you:

- He will examine the lots you wish to bid on and determine their suitability for your collection according to your standards.
- He will give you complete bidding advice.
- He will execute your bid up to the amount you and he have previously agreed upon.
- He will be able to execute your second choice bids if you are unsuccessful on some lots.
- He will do all of these for a nominal fee based on the actual price you pay for the coin (usually 5%). You pay nothing if you are an unsuccessful bidder.

It lets you bid as if you're at the auction.

Now you have a choice. If you're unable to attend a New England Rare Coin Auction sale, you can bid by mail or let a qualified auction-bidder representative do the bidding for you **in person**.

Here's how it works:

On the opposite page, you'll find the names of several qualified auction bidder-representatives who will be attending all 1980 New England Rare Coin auctions and who have agreed to execute bids for a nominal commission. Just choose the one you'd like to have represent you and he will perform all the services shown.

Contact the bidder-representative nearest your area.

An Invitation to Greater Knowledge

Numismatics is a world unto itself—vast in scope, rich in history, fascinating in detail. To explore this world is to be captivated by — and to explore it fully is to become a member of the American Numismatic Association. The American Numismatic Association (the A.N.A.) is the world's largest and most active numismatic organization. And when you join, you'll receive:

☐ **The Numismatist**

A scholarly monthly magazine sent free to all regular, club, junior and life A.N.A. members. Through **The Numismatist** you'll expand your collecting horizons and become knowledgeable in a wealth of numismatic subjects.

- ☐ **ANACS Service**
The A.N.A.'s grading and authentication service for all your coins at a special membership rate.
- ☐ **Use of the A.N.A. Library**
The largest numismatic library in the world from which you can borrow all kinds of numismatic reference works.
- ☐ **Insurances**
Offered through the A.N.A. for your collection, your health, and your life.

Plus you'll receive a free **Dictionary of Numismatic Terms**, an **Introduction to Numismatics**, and an invitation to participate in the A.N.A.'s annual conventions and auctions.

Announcing an exciting New commission package from New England Rare Coin Auctions

There's a new era coming in rare coin auctions. And New England is leading the way, with an exciting new commission package we call 10/10. The theory behind 10/10 was derived from the European auction market. Under this system, sellers and buyers are each assigned a fraction of the total commis-

sion. In New England's case, sellers will be assigned a 10% commission (based on the selling price of their coins) and buyers will be charged 10% on each successful bid. The result: buyers and sellers at New England auctions will be joined in a mutually rewarding partnership with some outstanding advantages.

Sellers:

You retain 10% more profit!

New England's new 10% commission for rare coin sellers represents a 50% reduction of our selling fee. That means rare coin sellers now retain at least 90% of the prices realized from their coins when they sell through New England. And because we've kept our 10/10 commission package flexible, sellers of major consignments may even retain more than 90%! Better still, all this will be accomplished without a reduction in the quality or quantity of New England's fine selling services — services that, in 1979, produced the highest-grossing A.N.A. Auction in numismatic history.

New England:

Dear Fellow Numismatists,

Welcome to the Boston Jubilee Auction! New England Rare Coin Auctions is proud to take part in the 350th birthday celebration of our historic city with an outstanding auction event. We hope that while you are in Boston you will also be able to sample other Jubilee events as well. Every coin collector has a love of history that goes far beyond the coins themselves, and I know that your experience at Boston Jubilee 350 will enrich your appreciation for America's past and the history of her coinage.

With this auction, an important change in our commission structure takes effect. **The commission paid by consignors**, previously ranging up to 20%, **has been lowered to a maximum of 10%.** Correspondingly, a buyer's charge of 10% will be added to the hammer price of each lot. This new arrangement, adopted years ago by the fine auction houses of Europe, equitably distributes the cost of the auction between the consignor and the bidder, and we feel it will benefit both parties. For more information on "10/10," or to consign coins to an upcoming auction, you are invited to contact our Consignment Administrator Bruce Laing.

The first proof of the desirability of our "10/10" commission is the extraordinarily high quality and variety of collections which have been placed in this auction. First among them is the collection of Dr. G. Charles Niemeyer of Washington, D.C. The Niemeyer Collection of Half Eagles and Eagles is an outstanding group of coins, assembled by a scholarly collector of great taste and discrimination, and I hope you will examine it carefully. Note the "S" mint Half Eagles, especially 1908-S, 1911-S and 1913-S (all rare in Mint State); among the Eagles, many "D" and "S" rarities appear. For more on the collection, and the collector himself, see p. 10.

Dr. Stanley Woollams of Ann Arbor, Michigan, another distinguished scholar, here opens his collecting cabinet to the public — and in it we see a continuation of the collecting trend made evident at our last auction by the sale of New England Rare Coin Fund I. Dr. Woollams, founder and Director of the Huron Valley Institute, assembled his superb collection of Half Dollars and other type coins, not as a private pastime, but as a long-term investment for the employee pension fund of the Institute. New England numismatists Jim Halperin and Marc Emory worked closely with him in finding outstanding coins for the fund; I would particularly like to call your attention to the 1807 Draped Bust Half Dollar, Heraldic Eagle, in MS-63 — a fantastic coin which deserves a place in another distinguished collection. Other Half Dollars of note in this offering are the 1839 Seated Half, No Drapery, and the blazing gem 1853 Arrows and Rays Seated Half in MS-69.

Other highlights of the Boston Jubilee Auction include the 1869 Seated Half Dime, MS-69, and the 1851-O Seated Half Dime in MS-65. An attractive set of Liberty Nickels, from the 1883 No Cents to the 1912, is offered. Also for sale is an 1871-CC Seated Half in AU-55, from the Garrett Sale . . . such is the strength and fluidity of today's numismatic scene that the Garrett coins are already returning to the block. And of course,

there is Lot #323, the Ultra High Relief St. Gaudens, a simply stunning coin which I will not attempt to describe here. I urge you to examine it personally.

Over the years, the American Numismatic Association has been the strongest force in promoting the orderly growth and sound progress of our hobby. We at New England Rare Coin Galleries and Auctions — included more than 30 A.N.A. members — have supported the A.N.A. at every opportunity, and will continue to do so. I personally invite you to join the Association, and will sponsor the membership of any reader of this catalog. For more information, see our message on page v, and the convenient reply card enclosed.

I would also like to call your attention to Lot #1, the Boston Jubilee Auction Commemorative Poster. Lot #1 is the first signed and numbered copy of print, from an edition limited to only 350 copies. Susan Browne Hansen, who created last year's popular 1979 St. Louis A.N.A. poster, also designed this work. Proceeds from the sale of Lot #1 will benefit the Young Numismatists, one of the A.N.A.'s most important educational efforts.

My best wishes for successful bidding at the sale. We look forward to seeing you again, at the A.N.A. Convention in Cincinnati next month, and at our 1980 Fall Auction, back in Boston in October.

Sincerely,

Lee J. Bellisario
President,
New England Rare Coin Auctions.

7:00 P.M. LOTS
1 - 372

1. **BOSTON JUBILEE AUCTION COMMEMORATIVE POSTER**, by Susan Browne Hansen, with photography by Thomas Anderson, Randy Glenn, and Carol Herman. Here's your chance to own another attractive numismatic keepsake by the creator of last year's popular 1979 A.N.A. Commemorative Poster. The print (measuring 19" x 27") is #1 of an edition strictly limited to 350, signed and numbered by the artist, and presented in a handsome contemporary frame. This photographic walking tour of Boston in her 350th proud year will make a striking addition to your collection.

All proceeds of this lot will benefit the American Numismatic Association Young Numismatists Fund. Last year's poster sold for \$450!

TO EXAMINE LOTS FROM THIS AUCTION . . .

Prepare a list of the coins you would like to examine, and bring it with you to any scheduled exhibition of lots. That will make it possible to serve you more efficiently, and give you the most time to spend with the coins.

- 65 1892 MINT STATE-65, full strike. Satin-like (Semi-prooflike) fields. A few tiny pinpoint bag marks, but otherwise immaculate. An original beauty that has never been cleaned or dipped. A very popular date. Akers writes: "This is the lowest mintage quarter eagle after 1885. Despite the fact that there are 36 auction records in *Unc.* for this date, I must admit that I have seen relatively few truly choice specimens. In fact, I have seen more choice proofs than I have choice uncirculated pieces. Most of the *Uncs.* that I have seen have not been choice at all. This is in contrast, for example, to the 1894 which has appeared at auction in *Unc.* only one more time than the 1892. Most of the 1894's I have seen have been extremely choice, while the majority of the 1892's have been 'scuffy'." Ex. New England A.J. Amato II Collection, November 1978, Lot #1412. (photo)

- 66 1893 ALMOST UNCIRCULATED-58, lustrous. Full strike. INS papers accompany.

- 67 1893 MINT STATE-67, superb! Beautiful copper toning. Virtually flawless save for one trivial reverse edge mark. A wonder coin! Ex. New England May Sale, 1977, Lot #958. (photo)

- 68 1896 Virtually MINT STATE-60, lustrous, full strike.

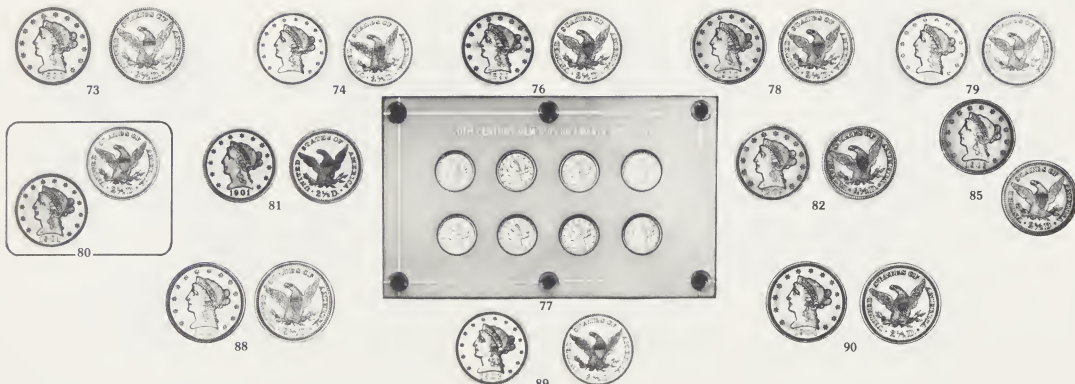

- 69 1897 MINT STATE-63, full strike, light natural obverse copper stain.

SUPERB 1897 QUARTER EAGLE

- 70 1897 MINT STATE-69, full strike with gorgeous surfaces and color. Exquisite. (photo) (color photo)

- 71 1898 MINT STATE-60, Prooflike and full strike. INS papers accompany.

- 72 1898 MINT STATE-63, tiny reverse scratch beneath S in STATES.

73 1898 MINT STATE-67, frosty full strike. (photo)

74 1898 PROOF-55, slightly impaired. Still an attractive example. (photo)

75 1899 MINT STATE-63. Full strike, with full gem frosty surfaces; but the reverse is lightly cleaned, creating a somewhat subdued look. Still quite attractive, and at first glance resembling a superb coin.

76 1899 MINT STATE-67, gorgeous copper toning over satin-like surfaces. Fantastic quality. (photo) (color photo)

GEM POST-1900 QUARTER EAGLE SET

77 A complete \$2½ gold set from 1900 to 1907. A beautifully matched set of quarter eagles grading MS-65. In full mint bloom, with an occasional pinpoint of copper toning. (photo) (Lot of 8 pieces)

78 1900 MINT STATE-67, Superb! Light original copper toning. Beautiful. Ex. New England Amato Sale, July 1978, Lot #1257. (photo)

79 1900 PROOF-55, slight friction in fields. A pleasing specimen. (photo)

SUPERB 1901 QUARTER EAGLE

The Niemeyer Collection of Half Eagles and Eagles

Dr. Charles Niemeyer, veteran Broadway actor, director, and theater historian, knows better than to begin a performance unprepared. Having decided, therefore, to play the coin collector, he studied his "script" and gathered his "props" with characteristic thoroughness. Dr. Niemeyer bought a Redbook and several other numismatic reference works, a subscription to *Coin World*, a pair of white gloves, and a green velvet mat. Only after three years of hard study and practice did he consider himself ready to purchase his first coin: a 1911 \$10 Indian.

That was in 1975. But the gold piece came from a New York firm primarily involved in bullion trading. When he asked for more high-grade Eagles, Niemeyer was told that the firm could not supply any. He then turned to numismatic firms, and soon had his first encounter with New England's founder and chairman, James L. Halperin. "I asked Jim if he was qualified to help me put together a collection. He suggested that I compare his talents with the competition's. I called a number of other firms and sure enough, I was soon convinced that Jim was the world's foremost authority on U.S. gold." Shortly thereafter, Dr. Niemeyer became a regular client of New England.

The St. Gaudens-designed Eagle, depicting Liberty in an Indian headdress, became the nucleus of Dr. Niemeyer's extraordinary collection. Pursuing the series in earnest, he quickly added high-grade specimens over a period of a year or so, completing the set. He also became intrigued with the \$5 Indian of the same period, whose incuse portrait of an authentic, craggy-featured Indian chief stands in sharp contrast to the obviously European face in St. Gaudens' portrait. Before long, the \$5 gold set was complete also. Highlights of the collection, which is the featured consignment of this auction, include the rare Half Eagles of 1910-S and 1929 vintage. Among the Eagles, the 1908 No Motto is an exceptional coin. New England Rare

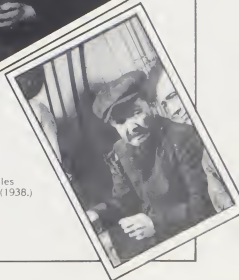

Coin Auctions president Lee J. Bellisario states that the coin is probably the finest known specimen. The 1915-S is also noteworthy.

Dr. Niemeyer, now a professor of Speech and Dramatic Arts at the University of Maryland, is the author of numerous articles, a book on the history of the theater and several film and television scripts. But he is best known in theatrical circles as an actor. Niemeyer's Broadway roles during the 1930's included the show-stopping Reverend Salvation in the 1938 satirical comedy *The Cradle Will Rock*. Written by Marc Blitzstein at the instigation of Bertold Brecht, the play was a musical expose of society's hypocrisy. Niemeyer's characterization of the sanctimonious, war-mongering Reverend Salvation attracted critical acclaim, but the actor chose to enter academic life rather than pursue his stage career. After receiving his Ph.D. from Yale, and various teaching appointments, he came to his present post.

Collectors who win valuable specimens from the Niemeyer Collection will not be the first hobbyists to benefit from Dr. Niemeyer's broad-ranging career. Stamp collectors will remember his role in the genesis of the 1975 postage stamp commemorating D.W. Griffith, the great American film director whose work includes *Birth of a Nation*, *Abraham Lincoln*, and *Orphans of the Storm*. Inspired by the 1961 French issue honoring director Georges Méliès, Niemeyer conceived the idea of a memorial for the centenary of Griffith's birth. In 1969 he suggested the project to actress Lillian Gish, who was on a lecture tour promoting her book *The Movies, Mr. Griffith, and Me*. Miss Gish took the idea to the people, asking every audience on her tour to write the Postmaster-General in favor of the stamp. Meanwhile Niemeyer and the American Film Institute lobbied in Washington, and the project was approved.

How did Niemeyer, a practitioner of the lively arts, come to our often-sedentary hobby? He recalls that he had placed some money in mutual funds in 1965, when the funds were doing well and seemed an excellent investment. In the early seventies the market turned down across the board. Niemeyer decided to sell out, taking a sizeable loss, and find a more suitable long-term investment. He could not have chosen better. New England Numismatist Marc Emory estimates that the Niemeyer collection — purchased for less than \$50,000 — could not be duplicated today for less than \$200,000.

Niemeyer's plans for the proceeds of the sale are simply to start a new coin collection. What it will contain is still undecided . . . but whatever it is, we are sure that New England Rare Coin Auctions will look forward to it as eagerly as they have awaited the sale of tonight's collection.

THE ANA GRADING SYSTEM

All U.S. coins cataloged by New England have been graded using the ANA grading terminology. This clear, concise terminology is widely recognized as the most accurate, efficient way to describe the condition of a coin.

191 1911-S MINT STATE-60, well struck. In full frosty mint bloom, with a few trivial bagmarks. This date is rare in mint state. Akers writes "... in strictly uncirculated condition it is rare, nearly as rare as the 1909-S, 1010-S, 1912-S and 1914-S and more rare than the lower mintage 1916-S." While its placement in the rarity scale of "S" mints is debatable, nevertheless it remains quite rare in mint state. Ex. New England 1975 N.E.N.A. Sale, Lot #743, where it then brought \$750! Easily a candidate today for a four-figure bid. (photo) (color photo)

192 1912 MINT STATE-65, lustrous. In full blazing mint bloom. (photo)

193 1912-S MINT STATE-63, a frosty borderline gem coin, although the mint mark is a bit mushy as always. The finest we've ever seen, and a very underrated coin. (photo) (color photo)

194 1913 MINT STATE-63, frosty surfaces. A few light marks from gem. (photo)

RARE MINT STATE 1913-S

195 1913-S MINT STATE-60, brilliant with a few too many surface marks for Choice. Still an outstanding 1913-S in strictly uncirculated condition. (photo) (color photo)

196 1914 MINT STATE-65 a blazing jewel with exquisite lustre. (photo)

197 1914-D MINT STATE-63, frosty and in full original brilliance.

198 1914-S MINT STATE-60, with full mint lustre and no rubbing. The reverse is fully struck with full feathers and a sharp mint mark. The obverse is fully struck except for the lower part of the Indian's headdress, which is a trifle soft. A few faint bag marks, and one heavier one above the motto. Otherwise, very Choice. In our opinion, the 1914-S is the rarest Indian Half Eagle in high grades. Usually seen only in EF or less, seldom in strict mint state and then usually quite weakly struck. A great opportunity! Ex. New England Commonwealth Sale 1977, Lot #1045, (photo)

199 1915 MINT STATE-63, brilliant and sharply struck. (photo)

POSSIBLY FINEST KNOWN B-1 1801 EAGLE

- 213 1801 Breen #1, R-7, Virtually MINT STATE-60, full strike, Semi-prooflike surfaces with a few light reverse adjustment marks. Breen writes, "... these are, (referring to B-1 1801) if memory serves, in the usual grade range—VF to EF. I have been looking at 1801's for over twelve years and have not seen a sixth. The rarity of the variety is easily accounted for, as both dies must have given out rapidly." This coin possibly the finest known. A rare opportunity. (photo) (color photo)

WHY ARE NEW ENGLAND AUCTIONS UNRESERVED?

At an unreserved auction like this one, all coins are sold to the highest bidder. There are no reserve bids, there are no pre-arranged bids. Every bidder has an equal chance of purchasing the coins he wants. Unreserved bidding is the keystone of every New England Rare Coin Auction, because unreserved bidding is a boon to bidders and consignors. Bidders can be sure they're always competing against legitimate bids. And consignors know that the atmosphere of free competition will produce the best prices possible. Before you consign to a rare coin auction, make sure it's unreserved.

ST. GAUDENS \$20 GOLD PIECES

ULTRA HIGH RELIEF DOUBLE EAGLE

323 Perhaps no other U.S. coin has attracted as much esthetic acclaim as Augustus Saint-Gaudens' (1848-1907) Roman Numerals (MCMVII) high relief. Even those on the periphery of coin collecting have been attracted by the beauty and lure of the High Relief Double Eagles.

The saga of these coins and the entire series from 1907 to 1933 began with a dinner meeting in 1905 in which President Theodore Roosevelt and already world-renowned sculptor Augustus Saint-Gaudens discussed the possible revisions of the U.S. gold series design.

President Roosevelt, long a student of antiquity, expressed an interest in the beauty of the High Relief coins of ancient Greece. The two men found themselves in agreement as to the lackluster appearance of current U.S. coin designs.

Saint-Gaudens was commissioned to design a new coin in the classical motif. This was the first time that a sculptor outside of the U.S. Mint had been commissioned to design some of our coins.

Of the short lived High Relief design only 11,250 were minted in both flat and wire rim. As described in *A Guide Book Of United States Coins* 33rd edition 1980,

A few experimental pieces were struck having an extremely high relief. They are easily distinguished from the ones issued later for general circulation.

The field of the rare experimental pieces is excessively concave and connects directly with the edge without any border, giving it a sharp knifelike appearance; Liberty's skirt shows two folds on the side of her right leg; the Capitol building in the background at left is very small; the sun, on the reverse side, has 14 rays, as opposed to the regular high relief coins that have only 13 rays extending from the sun.

Of the Extremely or Ultra High Relief double eagles, estimates range from 10-20 specimens struck. Virtually all of these were struck with edge lettering which stands upward when the coin rests on its obverse. Two unique varieties are known, one with plain edge, and this presently offered specimen, a major variety with inverted edge lettering. Both unique specimens trace their pedigree to the unique 1907 set first offered by Stack's in 1955, and recently purchased by us intact for the sum of one million dollars.

This exquisite coin grades Proof-65 with satin surfaces. Virtually free of the usual edge nicks, with only the slightest edge disturbance at obverse 9 o'clock. Characteristic lintmark on the reverse sun, as seen on all genuine Lettered Edge Ultra High Reliefs. **THIS IS THE FINEST ULTRA HIGH RELIEF DOUBLE EAGLE THIS CATALOGER HAS EVER CATALOGED OR SEEN!**

The last auction record for an Ultra High Relief double eagle is Stack's June 21-2, 1979. Sale specimen which was purchased by Kagin's for \$225,000. Prior to that, the Ullmer Coin (May 1974) realized \$200,000 to Manfra, Tordella and Brookes — at that time a record price for any U. S. coin.

We would conservatively estimate that a bid in the \$250,000 to \$350,000 range will be required to capture this prize coin — certainly the most famous and valuable coin we have ever offered for sale at public auction. (photo) (color photo)

SUPERB 1911 MATTE PROOF DOUBLE EAGLE

339

1911 MATTE PROOF-67, with impeccable light Matte Finish surfaces. Ex. 1980 Garrett II Sale where it was described as follows: "...It really isn't necessary to 'explain away' the mintage of 100 coins for the story is the same—only a tiny fraction exist today. Walter Breen, who certainly has seen more than his share of coins, asks the question, 'Do even 20 survive?' He could only cite three specific instances of 1911 Matte Proof double eagles appearing in public auction sales.

As noted in our earlier commentary, Matte Proofs, although highly prized by Mint officials both in America and abroad, were not well received by collectors, who preferred the more traditional "brilliant" style. The Mint produced, on speculation, modest quantities each year, but apparently only very few were ever ordered. The result is that today Matte Proof gold coins of all denominations stand in the very forefront of American numismatic rarities. Only at widely separate intervals do individual Matte Proof gold coins of any date or denomination come on the market. The Garrett Collection offering of complete Matte Proof date runs of quarter eagles, half eagles, eagles and double eagles, is an event which will forever shine in the annals of numismatics. An outstanding opportunity to acquire a twentieth century rarity. (photo) (color photo)

SUPER 1912 MATTE PROOF DOUBLE EAGLE

345

1912 MATTE PROOF-69, a pristine Matte Proof Twenty with exquisite light Matte Finish. Ex. 1980 Garrett II Sale where it was described as follows: "One of just 74 specimens minted, and one of just a handful in existence today. It is estimated that perhaps no more than 10 or 15, if indeed that many, have survived to the present era. Walter Breen traces the auction appearance of just four coins! Others are noted as being in a Philadelphia estate and in museums.

"The present piece, unsurpassable in quality, will doubtless attract the close scrutiny and bidding attention of specialists." (photo) (color photo)

WHY ARE NEW ENGLAND AUCTIONS UNRESERVED?

At an unreserved auction like this one, all coins are sold to the highest bidder. There are no reserve bids, there are no pre-arranged bids. Every bidder has an equal chance of purchasing the coins he wants.

Unreserved bidding is the keystone of every New England Rare Coin Auction, because unreserved bidding is a boon to bidders and consignors. Bidders can be sure they're always competing against legitimate bids. And consignors know that the atmosphere of free competition will produce the best prices possible. Before you consign to a rare coin auction, make sure it's unreserved.

- 535 1803 Large 3, FINE-12, with light peripheral iridescent toning.
- 536 1807 Heraldic Eagle, Virtually MINT STATE-60, toned. Quite well struck for this issue, and equal to what has often traded as choice or gem quality. (photo) (color photo)

UNBELIEVABLE DRAPED BUST HALF DOLLAR

- 537 1807 Heraldic Eagle, MINT STATE-69, full strike with unbroken lustre, no visible marks and beautiful blue and russet toning. The highlight of Stan Woollams' beautiful Half Dollar type set, and from the standpoint of condition alone, the highlight of this entire sale. A VIRTUALLY PERFECT COIN.

Never, in the entire numismatic experience of this cataloger (Jim Halperin), have I ever had the pleasure of seeing any early U.S. type coin (Draped Bust type or earlier) in condition even remotely resembling this one.

You simply have to see this coin to believe it does or could exist. No matter what the new owner pays for this coin (and it will be a mind-boggling price), he will have the satisfaction of owning what is almost certainly the finest Draped Bust Half Dollar on earth. (photo) (color photo)

BOSTON

1620: The Colonists Arrive

In the earliest days of Governor John Winthrop's Massachusetts Bay Colony there was no official coinage. Trading was carried on first by barter, later through the exchange of corn, bullets, animal pelts and wampum. Wampum consisted of colored shells which were ground down to the size of corn kernels and, for convenience's sake, strung on thongs and worn about the neck. So popular did this crude form of money become that, in 1637, the General Court of Massachusetts declared "wampamege" legal tender "that should passe at 6 a penny for any sume under 12d."

However, Massachusetts citizens soon felt the need for a more carefully controlled medium of exchange and, in 1651, called upon the General Court to procure coinage. In the past, the Court had found this difficult to do, especially since the English government, teetering on the brink of civil war, had no time to mint coins for the colonies. Thus, the Court was forced to take matters into their own hands and, in 1652, commissioned Joseph Jenks of Saugus and John Hull of Boston to create and mint America's first coins.

1652: The First American Coins

The first coins minted in America were the "New England" or "NE" pieces in three denominations: threepence, sixpence and shillings. Joseph Jenks cut the dies for these coins at his iron works in Saugus. John Hull and his assistant, Robert Sanderson, minted the coins at Hull's place of business in Boston (located near the spot where the Suffolk County Courthouse now stands).

The entire series of "NE" coins was struck between June 11 and October 19, 1652. This, in part, accounts for their extreme rarity today. In fact, only 2 specimens of the threepence and 6 of the sixpence are currently known to exist, and each is considered priceless. Specimens of the shilling are slightly more plentiful and have been valued at as much as \$12,500.*

1653: The Colonial Tree Coinage

While minting the historic "NE" coins, Boston mintmaster John Hull had been careful to produce each denomination at special reduced weights. This kept the coins from being traded overseas, but it could not keep them from creating problems at home. Due to the simplicity of the NE designs, many colonists found the coins easier to counterfeit than to earn. Other Bostonians took advantage of the coins' bare, flat surfaces and began shaving silver from them. By 1653, a more intricately designed series of coins was being produced at the Boston Mint: the Colonial Tree Coinage.

Three varieties of Tree Coinage were produced between 1653 and 1682. The first, called "Willow Tree Coinage," was minted using a hand-held mallet. Later versions, the Oak and Pine Tree coins, were produced on a screw press. Today, collectible specimens of Boston Tree Coinage have been valued from \$125 to 13,500, depending upon the specific coin and its condition.

1980: Boston and Numismatics

1682 marked the closing of John Hull's Boston Mint and the end of coin production in Massachusetts. Yet, to modern coin collectors, this 350-year-old city is still a pivotal part of numismatics. It is here that the world's largest dealer in rare U.S. coins, New England Rare Coin Galleries, headquarters its international operations. Begun in 1968 by Wayland native James L. Halperin, New England now has the largest staff of professional numismatists in the world. It offers collectors the most abundant retail inventory of high-quality U.S. rare coinage in the field. And its auction division, New England Rare Coin Auctions, offers collectors a chance to buy and sell high-quality coins in sales like this Boston Jubilee Auction.

BOSTON

New England Rare Coin Galleries

Here in Boston's busy financial district, New England's unique rare coin gallery serves the special needs of Boston-area collectors and investors. The gallery's attractive window and showcase displays are always full of beautiful coins for sale and historic information. The gallery's contemporary beauty and educational service to the public have won recognition from television, magazines and local government.

1201 1834 MINT STATE-65, full strike. A frosty, brilliant coin. (photo)

1202 1835 Large Date, Large 5¢, V-3a, Ex. New England Cambridge Sale 1976, Lot #397 where it was described as PROOF (in our opinion) with attractive violet and gold toning which hides a few light hairlines. Full Proof surfaces, even between the vertical bars of the shield. To our knowledge, the variety is unique in Proof and according to Valentine, it is extremely rare in all conditions. A prize, be it for the Half Dime specialist or type collector. (photo)

1203 1835 Small Date, Small 5¢, ALMOST UNCIRCULATED-58. Brilliant, with a few light obverse vertical hairline scratches.

1204 1835 Small Date, Small 5¢, V-7, MINT STATE-67. Deep steel-gray and gold toning. A fully struck jewel. (photo)

1205 1836 Small 5¢, MINT STATE-63, full strike, blazing lustre. A gem, save for a tiny obverse edge nick at 3 o'clock. (photo)

1206 1836 Large 5¢, MINT STATE-65, deep russet and steel-gray toning. A beautiful little jewel. (photo) (color photo)

1207 1837 Small 5¢, V-2, Ex. New England May 1977 Sale, Lot #355 where it was described as GEM UNCIRCULATED-65, medium golden toning. Full blazing mint lustre, fully struck with nearly flawless surfaces. A very rare coin in this condition; easily the finest we've seen to date. (photo)

- 1365 1898 PROOF-63, light peripheral gray toning with usual light hairlines.
- 1366 1898-S MINT STATE-67, full strike. Ex. New England 1977 Commonwealth Sale, Lot #411, where it was described as, "Superb! Light golden toning and perfectly struck. Near perfection in all respects. This is a very underrated date which, in our opinion, appears less frequently than the higher priced 1896-S and 1897-S. The current listings will have to be ignored, and a bid on the far side of \$500 is recommended." It realized \$675 in that sale. Worth many times that today. (photo)
- 1367 1899 MINT STATE-60, a frosty jewel. Faint scratch on cheek.
- 1368 1899 MINT STATE-65, light golden toning.
- 1369 1899 PROOF-65, with lovely blue-green and violet toning. (photo)

- 1370 1899-O MINT STATE-63, Semi-prooflike with light russet toning. Almost fully struck.
- 1371 1900 PROOF-65, toned cameo. A sparkling gem. Ex. Superior DeSylvia and Rabun Sale 1978, Lot #192. (photo)

CALIFORNIA GOLD

The following is a beautiful offering of California Gold coins. All are attributed according to Kenneth Lee's reference, *California Gold Dollars, Half Dollars, and Quarter Dollars*. Unlike the rarity numbers used with most U.S. coins (R-1 through R-8), Lee uses a rarity scale of 1 to 4 which works as follows:

Rarity 1 8 - 10 Specimens known
Rarity 3 4 - 5 Specimens known

Rarity 2 6 - 7 Specimens known
Rarity 4 1 - 3 Specimens known

- 1544 1853 25¢ Octagonal: Small Liberty Head, Lee #3-A, MINT STATE-63, Semi-prooflike, full strike.
- 1545 1854 25¢ Octagonal: Liberty Head, Lee #4-A, MINT STATE-63, Prooflike.

The following lots are given K numbers by Kenneth Lee to signify a cache of counterfeits which first appeared in the A.C. Nygren Sale by Henry Chapman in 1924. Known as the "Kroll Hoard," less than a thousand pieces appeared in the sale with six varieties in all. Today, as then, these Kroll fabrications are collected by many as part of the California Gold series.

- 1728 1857 25¢ Octagonal: Liberty Head, Lee #K-1, MINT STATE-60, but struck from virtually filled obverse die. Reverse is quite sharp and fully struck.
- 1729 1857 25¢ Octagonal: Liberty Head, Lee #K-1, MINT STATE-60, but with partial obverse tap hole at center.
- 1730 1857 25¢ Octagonal: Liberty Head, Lee #K-1, MINT STATE-63, struck on slightly waffled planchet.

RARE \$20 DIAMOND BACK

1754

\$20 1864, Interest Bearing Note. One year note, F-197, FINE note completely intact with two 1/4" border tears. Actually quite bright with color of a VF note. Robert Friedberg in his, *Paper Money of the United States* (9th Edition) describes this entire series as follows:

"The Interest Bearing Notes are the rarest of all issues of American currency. Even advanced collectors after many years of ardent search will not have had the pleasure of seeing one of these notes. Such rarity is only natural for these notes, and applies as well to all three types of American currency which bore interest, the Compound Interest Treasury Notes, the Refunding Certificates and these Interest Bearing Notes. When one considers the perilous state of the nation in those years, the scarcity of money and the general fear, it was a rare person indeed, one either supremely confident or sublimely ignorant, who did not turn in his interest bearing money the moment the interest became payable. That is why so few of these exist today and why so many of the higher values are completely unknown."

Although Friedberg refers to about 14 known this cataloger believes less than a dozen of these notes exist. This specimen is certainly Condition Census and perhaps in the top two or three notes. With GEM \$5 Educationals bringing \$15,000 or more, this rarity is certainly a candidate for a five figure bid. A rare opportunity. (photo)

- 1763 \$2 1896 Silver Certificate, F-247, CHOICE NEW note, wide even margins. Popular \$2 Educational. (\$3000-5500) (photo)

GEM \$5 COIN REVERSE SILVER CERTIFICATE

- 1764 \$5 1886, Silver Certificate, F-263, GEM NEW note, bright generous margins with superb centering and color. Exquisite note with popular "Silver Dollar back" five 1886 Silver Dollars as the back vignette. An impressive design and superb note. (\$7000-10,000) (photo)

GEM \$5 EDUCATIONAL

- 1765 \$5 1896, Silver Certificate, F-268, GEM NEW note, wide even margin. Popular key to the Educational series with electricity portrayed as the dominant force in the world. A beautiful vignette. (\$8000-15,000) (photo)

SUPERB \$5 "ONEPAPA" NOTE

- 1766 \$5 1899, Silver Certificate, F-281, GEM NEW note, bright bold colors with even margins. A superb Indian Chief. (\$2700-4100) (photo)
- 1767 \$10 1880, Silver Certificate, F-289, EXTREMELY FINE note, with usual light vertical folds and a few light stains. Still very bright and quite scarce. Unlike most U.S. currency, this note has the unusual Black reverse design. (\$1200-2500) (photo)

1769

1770

1768 \$10 1908, Silver Certificate, F-303, CHOICE ALMOST UNCIRCULATED note, with very light corner and vertical folds. At first glance (to the untrained eye) it would appear to be a Choice Crisp Uncirculated note. Quite attractive and popular Tombstone note. (\$500-800) (photo)

1769 \$20 1891, Silver Certificate, F-321, CRISP UNCIRCULATED note, full margins and nicely centered. Scarce. (\$1700-3500) (photo)

1770 \$1 1891, Treasury Note, F-350, NEW note, bright full even margins. Light reverse paper thin at right margin, otherwise a Gem note. (\$600-1100) (photo)

1771 \$1 1891, Treasury Note, F-352, VERY FINE note. Three vertical folds. (\$80-125)

1772 \$5 1891, Treasury Note, F-363, CHOICE ALMOST UNCIRCULATED note. Crisp and bright note with a few faint folds. (\$250-600)

1773

1774

1773 \$10 1891, Treasury Note, F-369, GEM NEW note, full even margins, perfectly centered. Although the 1890 \$10 catalogs for double the 1891, the latter appears less frequently than normally thought. This note presently represents a good value in comparison. (\$2500-4000) (photo)

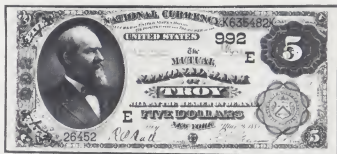

CHOICE "WATERMELON" \$100 TREASURY NOTE

1774 \$100 1890 Treasury Note, F-377. Considered one of the most celebrated notes in U.S. paper money. The Watermelon note (so named for the watermelon appearance of the reverse zeroes in \$100) has long been the highlight of the best collections, although there are only an estimated twelve to fifteen known. As yet no Uncirculated specimens are known, and this cataloger can locate only two AU notes. The most recent was offered in Bowers and Ruddy's spring 1979 Rare Coin Review and was quickly sold then for \$25,000.

This specimen grades EXTREMELY FINE, with center fold and one tiny pinhole in center. A bright note with full margins and some light normal soiling. A Condition Census note and certain to fetch a strong five figure bid. (photo)

1782

- 1775 \$1 1875, F-385, Mechanics National Bank of PHILADELPHIA, No. 610, EXTREMELY FINE note. Bright pen ink signatures, with a couple of light vertical folds. (\$350-500)
- 1776 \$2 1875, Original, F-389, National Bank of HAVERSTRAW, NEW YORK, No. 2229. Only \$3,357 outstanding. CHOICE ALMOST UNCIRCULATED note, with two light vertical folds. Scarce and popular "Lazy Z" note. (\$1600-3000) (photo)
- 1777 \$5 1875, F-404, Keystone National Bank of PHILADELPHIA, No. 2291. Only \$1,760 outstanding. GOOD to VERY GOOD note. Still quite scarce. (\$175-300)
- 1778 \$5 1882, Brown Back, F-467, Mutual National Bank of TROY, NEW YORK, No. 992, only \$18,667 outstanding. CHOICE NEW note, nice margins with vivid pen ink signatures. (\$450-700) (photo)
- 1779 \$10 1882, Value Back, F-577, Wells Fargo Nevada National Bank of SAN FRANCISCO, No. 5105. Scarce type note. FINE note with moderate to heavy soiling. (\$200-400)
- 1780 \$10 1902, Red Seal, F-613, First National Bank of PEORIA, ILLINOIS, No. 176, CHOICE CRISP UNCIRCULATED note, bright with tight top margin. (\$600-1200) (photo)

- 1781 \$10 1902, Plain Back, F-624, Commercial National Bank of TIFFIN, OHIO, No. 7795. CHOICE NEW note. (\$250-425)

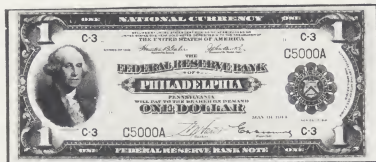

CHOICE COLLECTION OF FEDERAL RESERVE NOTES

The following Federal Reserve Notes represent one collector's attempt to complete a set in the finest obtainable condition. Many of the references to rarity and Condition Census status are the result of the exhaustive search by the collector to complete the series. In some cases known rarities will be supported by the appearance and condition of notes in this offering. In other instances notes previously considered common will be shown to be scarce and perhaps rare in Uncirculated condition. This collection presents a unique opportunity to acquire a few Choice Federal Reserve notes, and should prove to add new knowledge to this interesting series.

- 1782 \$1 1918, Federal Reserve Bank Note, F-708, Boston Radar Note, CHOICE NEW note. Ex. Grinnel Sale, 1945-46. (\$250-450) (photo)

Serving the collecting public in a totally new way

New England Rare Coin Galleries' Ancient and World Coin Division

A new service for collectors

New England Rare Coin Galleries, world's largest dealer in rare U.S. coinage, also offers an exciting selection of ancient and world coins through its new Ancient and World Coin Division. Established in September of 1979, New England's latest collector service division is headed by internationally renowned numismatist Frank Garofalo. Mr. Garofalo's considerable numismatic skills have been sharply developed by almost two decades of professional rare coin experience. Before joining New England, he ran his own highly successful coin dealership and served as a District Representative for the American Numismatic Association. Under his direction, New England's Ancient and World Coin Division now brings history's most desirable numismatic rarities to today's collector.
